RE: Wireless Spectrum for Point to Point Wireless Data Access

June 6, 2014

Dear Mr. Wells,

As per the policy drafted for provisional Spectrum requests, Digicel would like to apply for an allocation of Point to Point Microwave spectrum.

The requirements are as follows:

**Exact Spectrum required:**

- Digicel requires an allocation of 2\*2\*28Mhz in this range to support its business needs.
- The exact spectrum that is required is as follows:

Frequency (GHz)	Operating Frequency Range (GHz)	Tx/Rx Spacing (MHz)
23	21.2-23.65	1008, 1200, 1232

- From the RA table, could you allocate Channels 1-8 to Digicel?

23 GHz Band (50 MHz bandwidth)				
CH #	Transmit (receive) (MHz)	Receive (transmit) (MHz)	Date Assigned	Assignee
1	21225 .....	22425		DIGICEL
2	21275 .....	22475		DIGICEL
3	21325 .....	22525		DIGICEL
4	21375 .....	22575		DIGICEL
5	21425 .....	22625		DIGICEL
6	21475 .....	22675		DIGICEL
7	21525 .....	22725		DIGICEL
8	21575 .....	22775		DIGICEL
9	21625 .....	22825		

10	21675 .....	22875	
11	21725 .....	22925	
12	21775 .....	22975	
13	21825 .....	23025	
14	21875 .....	23075	
15	21925 .....	23125	
16	21975 .....	23175	
17	22025 .....	23225	
18	22075 .....	23275	
19	22125 .....	23325	
20	22175 .....	23375	
21	22225 .....	23425	
22	22275 .....	23475	
23	22325 .....	23525	
24	22375 .....	23575	

These frequencies may be assigned to low power systems, as defined in paragraph (8) of this section.

Alternative channels. These channels are set aside for narrow bandwidth systems and should be used only if all other channels are blocked

Available for assignment

Sincerely,

Neil Lupsic

Chief Technology Officer

Digicel
